

DRIVER BULLETIN | COTA | 18 OCTOBER 2018

To take advantage of the F1 track lights and enhance safety, we will be using the F1 flagging for this event. As you probably know, the F1 lights are very bright and easy to see.

A waving yellow flag and yellow light are equivalent to our standing yellow flag.

A double waving yellow and flashing yellow lights are equivalent to our waving yellow flag.

An “SC” light indicates a safety car is on track, like our double yellow flags.
