

F3 Technical Regulation Bulletin

No: TRBF3-2018-003

Date: September 22, 2018

Subject: Gearbox to Attenuator Strap for Atlanta Event Only

For the 2018 Road Atlanta event only, teams are allowed to add a connecting strap from the topmost bolt on the attenuator and wing post to the threaded hole in the transmission just forward of the attenuator bolt.

This is a temporary change permitted only at Road Atlanta.

See the photo below, taken from the left side of the car.
